

Idan B., 25, is a reserve soldier who was severely wounded during second Lebanon war in summer 2006. Idan had a broken upper jaw and nose, broken left leg and fingers of the right hand. Shards remain all over the body.

---

*I wanted to thank you very, very much for your goodness and for your care about Israel and Israeli soldiers!*

*It is very exciting to know that people from across the sea really care about you and want to help!*

*It's not a common thing and we appreciate it a lot.*

*I'm doing fine now, still in working on my leg in physiotherapy and still need to do a few surgeries in my face. But thanks god I'm walking and thinking and alive.*

*I'm getting better and better everyday and don't look back, only forward and people like you have a great part of it.*

*Thanks again.*

*Idan B.*

*April 30, 2007*
